

THIS IS BUD.

Bud is learning the importance of salting correctly. Oversalting can lead to an increase of chloride levels in our lakes and rivers.

Remember to use the right **S.A.L.T.**

Stuff: Road salt only works above 15 degrees F.

Amount: One 12oz. coffee cup full is enough for 10 sidewalk spaces.

Location: 1 tsp. of salt permanently pollutes 5 gal. of water. Try to keep salt only on walkways and driveways.

Time: Salt works best right before it snows.
